

Cartizze

From the hill symbolizing Prosecco Superiore's land comes the finest expression of this wine: Cartizze. The perfect blend between environment, history and the work of man.

The vineyards wind their way along a steep crest at a height of 300 meters above sea level and are blessed with abundant sunlight and constant protection from cold wind.

Firm rock below and crumbly stone on the surface; this soil endows the grapes with marked acidity balanced out by the natural sugars which are preserved and exalted by the manual grape harvest.
